

Upcoming Faculty Development Events

Faculty In-Service

December 18, 2020

Noon-4:30 pm

Topic: POPS (Patient-Oriented Problem-Solving)

The topic will be Patient-Oriented Problem-Solving (POPS) as a model for small group learning in a virtual environment. The first hour will be a presentation including guidelines and suggestions for developing POPS activities. The second hour, faculty will be participating in a demonstration of a POPS session. The remainder of the session will be an opportunity for the faculty to bring in a case from their course to develop into a POPS activity with support from the Academic Development Committee and the Office of Assessment and Educational Development.

January Faculty Development

January 12, 2021

11:45 to 12:45 pm

Topic: NBOME and COMLEX USA

The January 12th Faculty Development will be a Virtual Presentation. Each participant will need to join the meeting from the link. This is an external link provided by NBOME and COMLEX-USA. You will receive a reminder with the link and lunch will be provided. The link for this presentation is also listed below

Statewide Campus Webinar

January 13, 2021

12:00 – 1:00 pm

Topic: Recognizing Bias and Teaching Race in Medicine

Presenter: Dr. Staci Leisman

Events during the past year have highlighted awareness regarding unconscious bias in medicine and the need for intentional student instruction on changing perspectives regarding race. Dr. Staci Leisman recently led a discussion on this important topic during an IAMSE Café in November. Please join us for a continued conversation as we ponder teaching our students how to respond to these issues.
